ComBlock Control Center installation steps :

1. verify which version of Java is installed on your PC :
In the command window, type Java -version

```
PS C:\Users\HP10> java -version
java version "1.8.0_152"
Java(TM) SE Runtime Environment (build 1.8.0_152-b16)
Java HotSpot(TM) Client VM (build 25.152-b16, mixed mode)
PS C:\Users\HP10>
```

2. If less than 8 (or 1.8), install the latest Java runtime engine :

3. Install the ComBlock Control Center from the CD-ROM :

| ComBlock_Control_Center_windows_3_1... | 5/29/2018 3:04 PM | Application | 4,517 KB |

4. If planning to use a UART/Serial port to communicate with older ComBlocks, the following files should be copied :

From C:\Program Files (x86)\ComBlock Control Center\jre\lib\	To
comm.jar	C:\Program Files (x86)\Java\jre1.8.0_152\lib
javax.comm.properties	C:\Program Files (x86)\Java\jre1.8.0_152\lib
